

Our Customers

Perlustro products are currently used throughout the global law enforcement, intelligence and military communities by over 25,000 end users in more than 60 countries, and are mission-critical for investigators pursuing cases involving terrorism, child pornography, tax fraud and other serious crimes. This community of end users is collectively the most advanced and discerning group of computer forensics investigators in the world. Perlustro products are used as the exclusive forensics tool by several of the leading forensics laboratories in the world.
